

There's Something In This Peaceful Picture That You Don't Realize. When You See It...OMG.

November 14, 2013 In the News Like 24k

This *looks* like a peaceful farmhouse. It *looks* like a nearby field is softly draped in fog or snow. But the truth is actually terrifying: these lands have been completely taken over by millions and millions of spiders. Fight the urge to burn your own house down as you read this.

Terrible flooding throughout Australia has caused more than 13,000 people to evacuate their homes.

Daniel Munoz / Reuters

Unfortunately, people weren't the only ones evacuating. Spiders are also running for the hills, causing farmlands to be literally covered in their webs.
