Come Home To The Land and Soil

Process for Joining Your State Assembly

- (1) The First Step is to Contact your State Coordinator**
- (2) The State Coordinator will guide you through the next steps.

(3) Before you commit to any paperwork you can join General Assembly calls and see if we are a good fit for you you will need to contact the State Coordinator.

(4) If and when you are ready to join the Assembly, you will need to complete the 1779 Naturalization Act to correct your status and get yourself back on the Land and Soil. You can learn more about the 1779 process at this link: **The 1779 Naturalization Act**. You will need to use a specific set of 1779 Templates from the New Hampshire State Coordinator to complete your 1779 process.

(5) Many people choose to complete the 928 Documents once they understand the benefits of correcting their status to American State National. The 928 document set provides 'Full-Armor' protection after you reclaim your American birthrights. You can learn more about the **928 Document Process here**.

Correcting Your Political Status

Our Federal Subcontractors forced their citizenship(s) on us as separate political statuses. They created false registrations for us as fictitious "persons" by fraudulently converting our birth certificates to Bonds (IOU's) when we were newborn babies. As a result, we were misrepresented as Territorial U.S. Citizens and as Municipal "citizens of the United States" (both are fictions) without our awareness or consent.

The good news is that there is a way to correct your falsified status. You can walk away from their scam by properly declaring your political status using the American States Assembly 1779 or 928 processes. By declaring your proper birthright status, recording it, and joining your State Assembly, you are setting yourself apart as a man or woman on the land-and-soil, and accepting your Public Duty, which is to uphold the Constitutions and the Public Law.

1779 Naturalization Act

The 1779 Naturalization Act is a streamlined process for correcting your political status. It is referred to as the One Page Declaration or the “one-pager”. This “one-pager” actually requires three (3) documents to be completed and a photo copy of your birth certificate. It’s a simplified process handled by The State Assembly Coordinator. It is similar to how our Forefathers identified themselves as Americans back in the 1700’s.

The 928 Process

The 928 method provides more protection than the 1779 Declaration. It is strongly advised that you take your time and carefully complete all your 928 documents. Learn what they mean as well as how you can use them, if and when you need them. Doing your due diligence while going through the 928 process will be more efficient and more cost-effective if you focus on getting the documents done correctly the first time. A new process will be forthcoming that will help make completing the 928 document set more efficient and more consistent. STEP 3 – Choose Your Status

You have the right to declare your political status as an **American State National** or an **American State Citizen**.

American State National

An American State National owes no allegiance to anyone, but must keep the peace. They may participate in general assembly meetings and vote on domestic (in-state) policy only. They are not eligible to hold an elected office within the State Assembly.

American State Citizen

American State Citizens help reconstruct organic State governments. They may participate in both general and executive assembly meetings, and vote on both domestic (in-state) and international (out of state) policies. Citizens are encouraged to be actively involved and are eligible to hold office in an elected position within their State Assemblies.

STEP 4 – Download the 1779 or 928 Forms

After choosing your status, you will need to complete certain documents that must be recorded publicly.

- The American States Assembly uses the **Land Recording Office (LRO)**
- The LRO is an open-source system used to publish and create credentials on the public record

STEP 5 – Complete Your Documents

We want you to be successful in declaring your status! If the documents are not filled out correctly, they will be returned to you. Take your time. Learn about what you are doing. Think it through.

Original ‘Wet-Ink’ and Color Copies

1. Each document that you autograph, notarize and thumbprint is considered a ‘Wet-Ink Original’.
2. Each ‘Wet-Ink’ original should be scanned and printed in color. These are considered ‘Color Copies’.
3. The only document required to be completed as a ‘Wet-Ink Original’ in duplicate is the ‘Declaration of the Naturalization Act 1779’ (both are mailed in for recording purposes, one will be retained on The Assembly public record and a verified copy will be returned to you).

Additional New Hampshire Recorder Requirement

1. If you choose ‘**Option 1**’, send one postage paid return envelope along with your documents to your State or County Coordinator or Recording Secretary so your documents can be recorded in the LRO and returned to you.

Important Reminders

1. Most of your forms will need to be notarized with an embossed seal. Be sure all the dates are accurate for the notary.
2. Be sure to affix you color Passport Photos with adhesive to your Witness Testimony Affirmations (no staples).
3. If you have any questions, a phone call can be set up to go over your questions.
4. You are highly encouraged to keep all your ‘Wet-Ink’ originals in a secure location.

5. Ensure you have separate .pdf scans of each of your recorded documents.

STEP 6 – Mail Your Documents

After your documents are completed, you will need to mail some of them along with letters to appropriate “incorporated” entities. This so that your corrected status is on the public record and provided as evidence, in case you ever need to advise your government employees of your corrected status in the future
